OUR CORE TECHNOLOGIES

Our expertise in smart hydrogels and controlled-release systems allows us to develop innovative, effective products with high scientific and technological value.

HYDROGELS

3D polymer networks that swell in water without dissolving. They enable the controlled release of active substances, biomolecules, and cells.

SARE Technology: Proprietary crosslinking technology that combines high and low molecular weight hyaluronic acid, forming a homogeneous matrix with a low degree of modification.

PROFILM Technology: Advanced mucoadhesion technology that protects, preserves and optimizes the residence time and activity of active ingredients.

GAMHA Technology: HA and γ-PGA technology that enhances mucoadhesion and resistance to enzymatic degradation, promoting prolonged ocular retention and protection.

NANOHYDROGELS

Nanometer-scale hydrogels whose reduced size confers unique physicochemical properties and specialized applications.

SUSTAINED RELEASE Technology: Technology that promotes the controlled release of the active ingredient at the site of application.

DDS-Diosmin Technology: Advanced biomimetic nanovesicle system that promotes controlled release of the active ingredient, protects it and optimizes its distribution in the skin to enhance cosmetic efficacy.

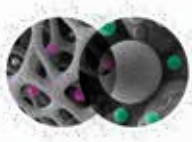

NANOCARRIERS

Nanometric carriers that enable the vectorization of active compounds and their delivery to a specific target.

MELALENCAP Technology: Tea tree oil encapsulation technology that promotes controlled release and improves tolerability.

EXOCARRIER Technology: Biomimetic nanoencapsulation technology using exosomes that protects and optimises the release and delivery of active ingredients, enhancing their interaction with the skin.

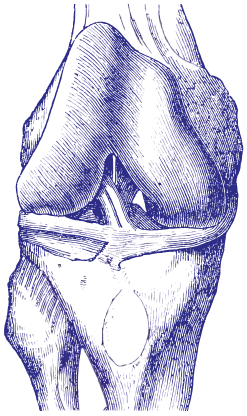

NANOCARRIERS + NANOHYDROGELS

EMAKARE Technology: Multi-pathway controlled release platform that optimizes hydration, relieves dryness and supports intimate-area balance.

Our products bear the CE mark and are MDR certified.

CE 0318 bsi. CE 2797

TRAUMATOLOGY

TrH INTRA-ARTICULAR INJECTIONS

Intra-articular **viscosupplementation injectables** formulated with **linear and crosslinked hyaluronic acid**. Designed to restore the altered **viscoelastic properties of synovial fluid associated** with **osteoarthritis.**

Viscosupplementation

Pain reduction

Long-lasting effect

Optimal viscoelastic properties

TrHLINE 1.0%
2 mL

TrHLINE 2.0%
2 mL

TrHCROSS 2.0%
4.4 mL

1 x One shot

TrHCROSS MINI 2.0%
1 mL

SARE TECHNOLOGY

TrH COMPLEMENTS FOR TRAUMATOLOGY

Complementary products for joint care, formulated to **relieve the sensation of tension and discomfort** in the application area.

TrHCREAM
60 mL

Soothing cream formulated with **DDS-Diosmin**, arnica and a **cooling effect** to provide skin comfort in areas subjected to **physical exertion, joint strain or muscle overload.**

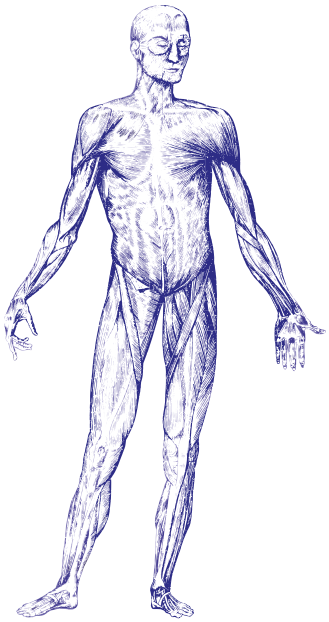

TrHPHYTO
60 mL

Formulated with **2% CBD and natural ingredients** to help support skin well-being in areas affected by **muscle or joint discomfort.**

TrHPLUS
30 sachets

Nutraceutical **blend for daily joint care**, thanks to an effective combination of ingredients such as **hydrolyzed collagen, vitamin C and chondroitin.**

REGENERATIVE MEDICINE

PRPKiT PLATELET-RICH PLASMA

Complete kit for the preparation of autologous PRP, enabling **simple, fast and safe** blood plasma collection. **Fully equipped, closed and sterile system.**

80.9%
Platelet Recovery Rate

2 Blood collection tubes
1 Resuspension tube
1 Blood collection holder

3 Needles:
1 Blood collection needle
1 Needle for vacuum release (21G)
1 Injection needle (30G)

Cannula (18G × 90 mm)

2 Syringes:
1 PRP transfer syringe (5 mL)
1 Injection syringe (1 mL)

JOINTKiT

Consisting of **TrHCROSS and PRPKiT**. This kit provides a complete **solution for hyaluronic acid viscosupplementation and tissue stimulation,** ensuring both devices are available throughout the procedure.

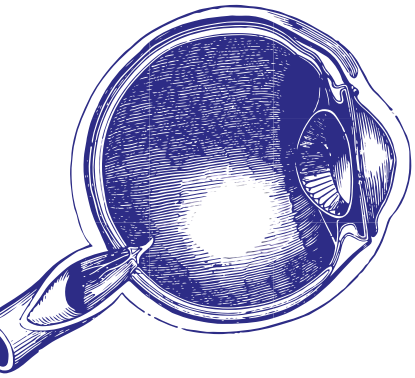

PRPKiT CENTRIFUGE

Accessory for **PRPKiT preparation.**

i+Med COOPERATIVE OF SCIENTISTS

OPHTHALMOLOGY

OpHLINE OPHTHALMIC VISCOELASTIC DEVICES (OVDS)

High-quality hyaluronic acid OVDs for cataract-related surgical procedures.

Safe and effective removal

Bubble-free formulation

Optimal visibility

Latex-free

OpHLINE 1.4%

1.2 mL

PROTECTION

Specifically designed to ensure **maximum protection of the corneal endothelium and complete removal** at the end of surgery.

OpHLINE 2.0%

1.2 mL

VERSATILE

Offers versatile performance by combining effective **endothelial protection with reliable anterior chamber space** maintenance.

OpHLINE 3.0%

1.2 mL

SPACE

It ensures **maximum space maintenance** in the anterior chamber and **consistent stability** throughout the procedure.

DayDrop INNOVATIVE OPHTHALMIC SOLUTIONS

Advanced ocular hydration solutions combining hyaluronic acid and innovative technologies to provide long-lasting relief from dry-eye symptoms.

Twice a day

Compatible with contact lenses

Preservative- and phosphate-free

Exclusive technologies

DAYDROP TRIPLE ACTION

0.4 mL and **10 mL**

Daily dry-eye relief providing **long-lasting hydration, lubrication** and **ocular surface protection,** together with **anti-allergic action**.

HA
Ectoine
CMC

SUSTAINED RELEASE TECHNOLOGY

DAYDROP ADVANCED

0.4 mL and **10 mL**

Immediate and **deep ultra-hydration** with **long-lasting relief** that supports ocular surface protection.

HA
γ-PGA

GAMHA TECHNOLOGY

DayLid

Daily eyelid and eyelash cleanser that cleanses, soothes and protects the sensitive periocular area, removes secretions and debris associated with Demodex, and provides immediate relief.

DAYLID CLEANSER

15 mL

Promotes **gentle and effective cleansing,** providing **hydration, comfort and protection** of the skin barrier, thanks to its formula and proprietary technology.

Ectoine
Tea tree oil

MELALENCAP TECHNOLOGY

i+Med COOPERATIVE OF SCIENTISTS

AESTHETICS

BtH FACIAL AND BODY INTRADERMAL FILLERS

Linear and cross-linked hyaluronic acid intradermal fillers, adapted to different facial restoration and body contouring needs.

Homogeneous integration into the tissue

Natural-looking results

Precise injection

Low endotoxin content

BtHLINE 1.4%

1 mL

Promotes **deep hydration,** improves skin quality, radiance, and texture, and provides a revitalizing effect on the **face, neck,** and **décolleté.**

BtHCROSS 1.5%

1 mL

Corrects **fine lines** and enhances and contours the **lips** with precision, delivering a smooth and natural-looking result.

BtHCROSS 1.75%

1 mL

Corrects **moderate to deep wrinkles and folds,** providing support and flexibility for harmonious results in **dynamic facial areas.**

BtHCROSS 2.0%

1 mL

Restores **deep facial volume** and enhances **contour definition,** offering high volumizing capacity and long-lasting results.

BtHBODY 2.2%

10 mL

Designed for body contouring, filling, and the restoration of contours and volume in various body areas, such as the **hips, buttocks, abdomen, or penis.**

SARE TECHNOLOGY

MESO THERAPY

A complete range of treatments specifically designed and formulated to improve skin appearance and health and reduce the signs of ageing.

Ultra Hydrate
PDRN
HA LMW

Skin Relief
Ectoine

Radiant Tone
Niacinamide
Tranexamic Acid

Blemish Corrector
Succinic Acid

Lift & Firm
Matrixyl
Argireline
Proxylane

Regenerate
Copper Peptides

MESO THERAPY ɣ-PGA

5 mL / vial

A range focused on deep hydration and skin barrier reinforcement, offering targeted solutions for specific indications.

Formulated with ɣ-PGA to improve active ingredient integration into the skin.

[γ-PGA]

MESO THERAPY EXO

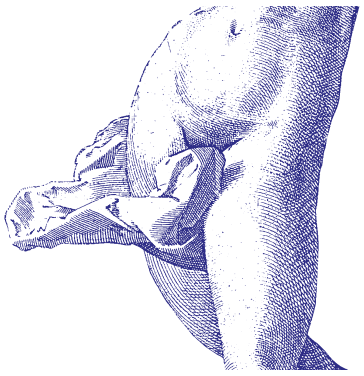

5 mL / vial

A range designed for skin repair and tissue regeneration, offering targeted solutions for specific indications.

Featuring exosome technology to boost active ingredient performance and maximise the overall effectiveness of the formula.

EXO CARRIER TECHNOLOGY

WOMEN'S HEALTH

BtHINTIMATE INTRADERMAL INTIMATE HYDROGEL

Cross-linked hyaluronic acid solution for the restoration of the **labia majora and mons pubis.**

- **Gynecologically tested**
- **Low endotoxin content**
- **Homogeneous integration into the tissue**
- **Natural-looking results**

BtHINTIMATE 2.0%

2 x 1 mL

Helps restore volume, hydration, and tissue quality in the intimate area, helping to **reduce the sensation of dryness, friction,** and **irritation from the first session.**

Thanks to its minimally invasive nature, it helps restore **intimate comfort safely and effectively.**

SARE TECHNOLOGY

G(Y)NED FEMALE INTIMATE HEALTH CARE

A range combining highly effective ingredients and innovative technologies to support women's intimate well-being and comfort at every stage of life.

- **Gynecologically tested**
- **Respects the intimate microbiota**
- **Fragrance-free**
- **Non-irritating and non-sensitising**

GYNED
INTIMATE MOISTURIZER

30 mL

Provides continuous hydration to help **restore the intimate area's barrier function, relieving dryness, itching and irritation** while promoting intimate comfort.

HA
Meadowfoam oil
Salvia officinalis

EMAKARE TECHNOLOGY

GYNED
MENSTRUAL RELIEF

50 mL

Body massage cream providing **calm, relief and comfort during the menstrual cycle.**

CBD
Evening primrose oil
Botanical complexes

DERMATOLOGY

PROFILM COLD SORES & MOUTH ULCERS

Natural formulations that create a protective physical barrier that is flexible, discreet, and adapts to the shape of the tissue.

Promotes healing | **Mucoadhesive gel** | **Relieves symptoms** | **Protects**

PROFILM MOUTH ULCERS

5 mL

Relieves the symptoms of oral ulcers and canker sores, promotes the recovery of the oral mucosa, and soothes irritation caused by orthodontic appliances and dental prostheses.

CMC
Vitamin C
Tea Tree Extract

PROFILM COLD SORES

5 mL

Recommended for the **protection** and **treatment** of lesions and symptoms associated with **cold sores**, promoting the healing process.

CMC
Propolis
Vitamin C

PROFILM TECHNOLOGY

REVODIOL

SOOTHING CREAM FOR ATOPIC SKIN

50 mL

Relieves the main signs and symptoms associated with **atopic dermatitis,** helping to improve skin comfort.

Centella asiatica
Squalane
Murumuru Butter
CBD

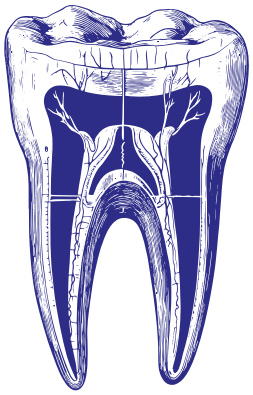

SKIN RESCUE

50 mL

Helps soothe and protect the skin, **reducing redness and itching.** Provides antioxidant and anti-ageing benefits while improving skin hydration and appearance.

Physalis angulata
Encapsulated beta-carotenes
Dragon fruit extract
Phyto-fused cotton and pomegranate stem cell cultures

ORAL HEALTH

ONAK TOOTHPASTE TABLETS

Chewable toothpaste tablets with a natural, innovative, safe, and effective formulation, developed according to professional oral hygiene standards.

Deep-clean feeling

12 ingredients of natural origin

Environmentally friendly

ONAK INFINITE

Refillable container with **160 tablets,** providing **1 to 3 months** of deep-cleaning action and natural freshness.

ONAK REFILL

Family-size refill pack with **480 tablets**, providing **5 to 8 months** of natural freshness and deep-cleaning action.

ONAK MINI

Compact format containing **50 tablets.** Ideal for travel, work, or school. Provides up to **one week** of responsible oral care.

ONAK SAMPLE

Sample sachet containing **4 tablets.**

ONAK MOUTHWASH TABLETS

Next-generation mouthwash tablets, offering a **safe, effective, and enamel-friendly solution.**

Help **combat bad breath** and maintain optimal oral health. The tablets **dissolve in water before rinsing,** providing a convenient routine and a fresh minty breath.
