

i+Med
COOPERATIVE
OF SCIENTISTS

SCIENCE BEHIND YOUR SIGHT

OpHLINE | DAYDROP

AT i+MED, WE ARE EXPERTS IN BIOTECHNOLOGY APPLIED TO OPHTHALMOLOGY: INTELLIGENT NANOHYDROGELS AND CONTROLLED RELEASE SYSTEMS

For more than 13 years, i+Med has specialized in the **research, development, and manufacture** of high-value medical devices and advanced formulations, leveraging its proprietary technologies.

+60
countries

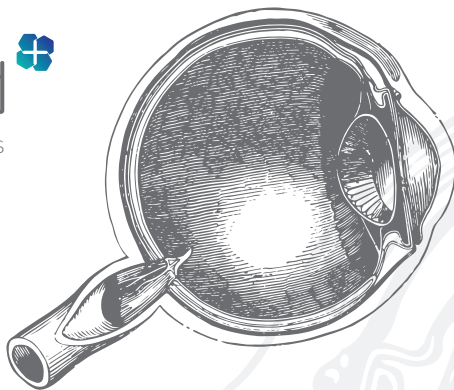

We are a cooperative of scientists based in Vitoria-Gasteiz (Spain), specialized in the development of biotechnological solutions applied to healthcare.

Our work extends to areas such as **ophthalmology, traumatology, aesthetics, oral health, dermatology, and women's health.**

Our model bridges scientific development and clinical practice, helping bring scientifically validated solutions to market.

We collaborate with biopharmaceutical companies, research centers, and distributors in more than 60 countries.

OpHLINE

THE PRECISE SOLUTION FOR EVERY SURGICAL NEED

Lineal high quality hyaluronic acid ophthalmic viscosurgical devices (OVD).

Optimal for all cataract-related surgical procedures.

OpHLINE 1.4%

PROTECTION

Specifically designed to ensure **maximum protection of the corneal endothelium and complete removal** at the end of surgery.

OpHLINE 2.0%

VERSATILE

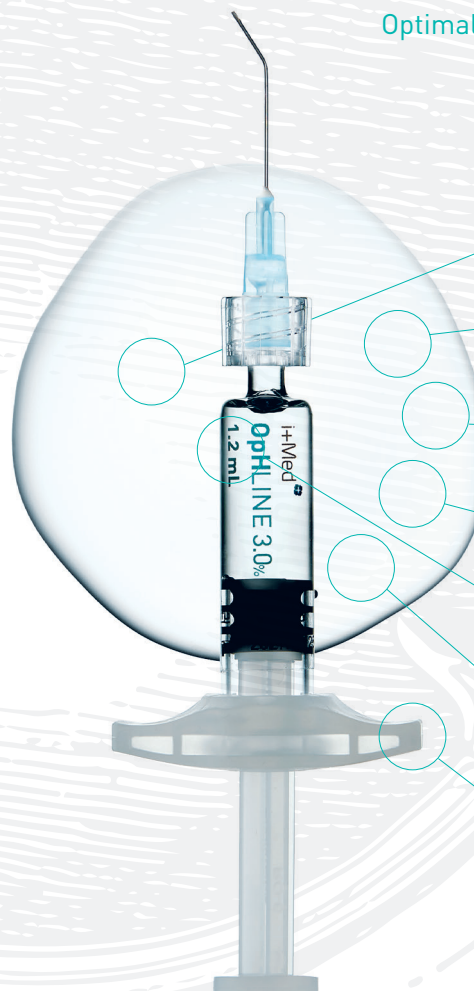

Offers **versatile performance** by combining effective endothelial protection with reliable anterior chamber space maintenance.

OpHLINE 3.0%

SPACE

It ensures **maximum space maintenance** in the anterior chamber and **consistent stability** throughout the procedure.

Safe and effective removal +

Maximum safety at the end of surgery.

Bubble-free formulation +

Enhanced surgical field visibility.

Biotechnological origin HA +

Reduced risk of adverse reactions.

Latex-free +

Minimized allergy risk.

More volume, more efficiency +

Improved efficiency in every procedure.

Moist heat sterilization +

Maximum assurance of safety.

Ergonomic design +

Comfortable syringe for greater precision and control.

DAYDROP

FIRST OPHTHALMIC SOLUTION WITH SUSTAINED RELEASE OF ECTOINE

DAYDROP TRIPLE ACTION

Long-lasting hydration for daily dry eye relief.

- Up to 12 hours of sustained ectoine release.
- Anti-allergic action thanks to ectoine.
- Hydrates, lubricates and protects.

Sustained-release ectoine technology.

2 times a day or as many times as indicated by your medical specialist.

Compatible with contact lenses.

Without preservatives or phosphates.

THE ONLY OPHTHALMIC SOLUTION WITH INNOVATIVE HA + γ -PGA TECHNOLOGY

DAYDROP ADVANCED

Deep, immediate hydration and long-lasting relief.

- Reduces HA degradation.
- Prolongs the protective effect.
- Enhanced ocular surface protection.

Innovative HA + γ -PGA technology.

DAYLID

Encapsulated tea tree oil to promote controlled release and improve tolerability.

Eyelid & eyelash cleanser.

For daily eyelid hygiene and the management of periocular sensitivity.

- Cleanses, soothes and protects sensitive eyelids.
- Removes secretions and debris associated with Demodex.
- Provides immediate relief and helps reduce itching and discomfort.

Dermatologically tested.

Ophthalmologically tested.

DAYCAPS Plus

COENZYME Q10

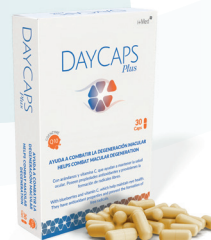

VITAMIN C

BLUEBERRIES

CAROTENOIDS

Nutraceutical for age related macular degeneration.

Formulation based on antioxidants (lutein, zeaxanthin, vitamin C), blueberries, DHA, vitamins, minerals, and zinc, designed to support eye health—particularly in conditions associated with age-related macular degeneration (AMD).

European product
manufactured at our
facilities in Spain

MDR Certified
